2-3 survey

2. Newberry survey, 1869-1882.
3. Edward Orton, senior, 1889-1899.

"The second geological survey was organized in 1869 and was under direction of late Prof. J. S. Newberry up to 1883. . . . . Under Dr. Newberry's direction, Repts. of Progress for 1869, 1870 and 1871 and vols. 1, 2, 3, and 4 were issued; incl. also vols. 1 and 2, Palæontology, together with geol. map of state on scale of 4 mi. to an in. In direct continuance of this work, vols. 5 and 6 were issued under my direction [i. e. Edward Orton, senior] as state geologist in 1884 and 1888 resp. A preliminary rept. on petroleum and gas was also published in this series in 1886.

GEOLOGY—cont'd

serial—cont'd

2-3 survey—cont'd

"The 2d geol. survey nominally terminated in 1888, with publication of v. 6; but in subsequent yr. (1889) provision was made by legisl. for continuation of geol. work . . . . results to be made known by ann. repts. . . . . Rept. was issued in 1890, entitled "First ann. rept. of state geol. survey, Third organization." Shortly before time for publication of 2d ann. rept. I was disabled in health . . . . permission was obtained from 70th Gen. Assem. to publish material gathered for 2d ann. rept. together with certain chapters under the title Geology of Ohio, vol. vii.

"It was the original plan of Dr. Newberry to divide each vol. of his repts. into two parts, the first covering general geology and the second paleontology. . . . . Vols. i and ii were issued in 2 parts . . . . when time came for publication of v. 3, finances of state had become straightened and the legislature was disinclined to incur the large expense, viz., about $60,000, necessary for publishing the paleontology on the scale on which the two preceding vols. had been issued. The legislature authorized the publication of general geology, pt. 1, under title of vol. 3. [Here follows an acct. of collection and authorship, names of chapters on paleontology in present vol. (7).]

"The cost of each of 2 vols. of Paleontology previously published was at least $60,000, the editions being 20,000. Present vol. has been prtd. in inexpensive form, and full equivalent of vol. 3, Paleontology is now furnished. The publication of vol. 4 was ordered by the legislature on the promise that it should contain an acct. of the zoology of state and a list of plants growing within its boundaries. . . . . It was to be named 'Vol. IV, Zoology and Botany.' The copy of the chapter prepared by Dr. H. C. Beardsley was mislaid and not recovered in time for publication. Thus the volume entitled 'Zoology and Botany' finally appeared without a line pertaining to last named subject. . . . . The deferred promise is made good in present vol." (Extr. from Preface of vol. 7 of Rept. on the geological survey.)

1873-1893. Rept. of geological survey of Ohio, v. 1-7.

Situation, area, etc.; topography; drift deposits; kames; soil and vegetation; geol. structure; economic geology; agric., sand and gravel, kames, lime, clay, water supply.

Defiance County

1873. Geology of Defiance Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 422-438, map.)
Situation and area; natural drainage; surface features: soil and timber; geol. structure; limestones and shales, drift; wells and springs; material resources; clay for brick—list of establishments, limestone, sandstone, slate (for cement), agric. and forests.

Delaware County

1873. Geology of Delaware Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 272-313, map.)
Situation and area; natural drainage; surface features; soil and timber; geol. structure; shales and sandstones, limestones, drift, wells and springs; material resources; lime and bldg. stone, Huron shale, Waverly sandstone, brick and tile establishments.

Erie County

1873. Rept. on geology of Erie Co.; by J. S. Newberry. (Rept. of geol. survey v. 2, pt. 1: 183-196, map.)
Surface features and deposits; Castalia Springs; geol. structure; berea grit, Bedford, Cleveland, Erie, Huron shales, Hamilton, corniferous limestones, Oriskany sandstone, waterlime group, Onondaga salt group; economic geol.; bldg. stone, oil shales.

Fairfield County

1874. Geology of Fairfield Co.; by E. B. Andrews. (Rept. of geol. survey v. 2, pt. 1: 592-594.)
Surface features; drift; Waverly stone; fertility of soil.

Franklin County

[1878.] Rept. on geology of Franklin Co.; by Edward Orton. (Rept. of geol. survey v. 3, pt. 1: 596-646, map.)
Situation and topography; geol. scale, corniferous limestone; stratigraphical relations, chemical compositions, catalogue of described fossils; economical geology; bldg. stone and lime, shales, fire-clay works, Waverly sandstone, etc.; drift.

Fulton County

1870. Geology of Fulton Co.; by G. K. Gilbert. (Rept. of progress of geol. survey 1870: 490-492.)
Surface geol.; soil and timber; economic geol.

1871. Geology of Fulton Co.; by G. K. Gilbert. (Rept. of geol. survey v. 1, pt. 1: 567-572.)
Topography; geol. structure; map; surface geol. and soils; economic geol.; water, clay, peat or muck, marl, bog iron ore, petroleum; vegetation.

Gallia County

1870. Geology of Gallia Co.; by E. B. Andrews. (Rept. of progress of geol. survey 1870: 178-181.)
Greenfield, Huntington, Walnut townships; coal and iron; furnaces.

Geauga County

1870. Geology of Geauga Co.; by M. C. Read. (Rept. of progress of geol. survey 1870: 463-473.)
Topography; soil; geol. formation; coal measures, conglomerate, berea grit, Cuyahoga shale, Bedford shales; fossils; surface deposits; glacial scratches, native forests, gold.

1871. Geology of Geauga Co.; by M. C. Read. (Rept. of geol. survey v. 1, pt. 1: 520-533.)
Topography; soil; geol. formations; coal measures, conglomerate, berea grit; Cuyahoga shales; Bedford shales; Cleveland shales, fossils, surface deposits, native forests; glacial scratches; gold.

Greene County

1874. Geology of Greene Co.; by Edward Orton. (Rept. of geol. survey v. 2, pt. 1: 659-696, map.)
Topography; geol. series; limestones, shales, bldg. stone; drift; soils; water supply.

Guernsey County

1872-1873. Rept. on geology of so. half of Guernsey Co.; by E. B. Andrews. (Rept. of geol. survey v. 2, pt. 1: 529-542.)
Topography; Adams, Cambridge, Center, Westland, Spencer, Jackson Valley, Richland, Wills, Millwood townships; coal principal resource.

[1878.] Rept. on geology of Guernsey Co., no. of Central R.R.; by J. J. Stevenson. (*Same* v. 3, pt. 1: 219-236.)
Surface geology; general geology; local geology; Millwood, Wills, Oxford, Londonderry, Washington, Monroe, Madison, Center, Jefferson, Liberty, Cambridge, Knox and Adams townships; summary; coal, iron, lime, water.

Hamilton County

1872. Geology of Hamilton Co.; by Edward Orton. (Rept. of geol. survey v. 1, pt. 1: 419-434, map.)
Topography; bedded rocks and their economical products; drift deposits or surface geology.

Hancock County

1873. Geology of Hancock Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 358-367, map.)
Situation and area; natural drainage; surface features; geol. structure; limestones and localities where found, drift; material resources; clays (list of tile-making and pottery establishments), wells and springs.

Hanging Rock District

1878. Suppl. rept. of geology of Hanging Rock distr.; by Edward Orton. (Rept. of geol. survey v. 3, pt. 1: 883-941, 8 pls.)
General geol. features; limestones; iron ores; coal seams; analyses of limestones, iron ores, coals.

Hardin County

1873. Geology of Hardin Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 352-357, map.)
Situation and area; natural drainage; surface features; geol. structure; limestones, drift; material resources; limestone, clay, sand, gravel.

Harrison County

[1878.] Rept. on geology of Harrison Co.; by J. J. Stevenson. (Rept. of geol. survey v. 3, pt. 1: 200-218, map.)
Surface geology; geol. structure; coal most important mineral, iron, bldg. materials.

Henry County

1873. Geology of Henry Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 415-421, map.)
Situation and area; natural drainage; surface features; soil and timber; geol. structure; limestone, slate, drift; list of wells and springs.

GEOLOGY—cont'd

Highland County

1870. Geol. of Highland Co. and cliff limestone of Highland and Adams Cos.; by Edward Orton. (Rept. of progress of geol. survey 1870: 253-309, map, 6 pls.)

Hocking County

1870. Geol. of Hocking Co.; by E. B. Andrews. (Rept. of progress of geol. survey 1870: 80-86, pl.)
Falls, Washington, Benton, Laurel ("Rock House"), Starr townships; chief deposits are coal, iron, limestone.

Hocking Valley

1877. Rept. on geology of Hocking Valley coal field; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 647-715.)
Extent of territory; importance of coal deposit; iron ores; limestones; fireclay; bldg. stone; salt; general considerations (i. e. causes tending to advance prosperity).

Holmes County

1870. Geology of Holmes Co.; by M. C. Read. (Rept. of progress of geol. survey 1870: 473-484.)
Topography; soil; drift; geol. structure; Waverly [sandstone], conglomerate, coals no. 1, 2, 3, iron ore, coal no. 6, no. 7, iron-ore and fire clays, lead, dip of coal measures.

[1878.] Geology of Holmes Co.; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 540-561.)
Topography; soil; drift; geol. structure; conglomerate, coals, iron ore and fire-clays, lead; dip of coal measures.

1884. Map of Holmes, Coshocton and Tuscarawas Cos., scale 2 mi. = 1 in. (No. 4 acc. rept. of geol. survey v. 5.)

Huron County

[1878.] Geology of Huron Co.; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 289-309, map.)
Topography; surface deposits; geol. structure; Cuyahoga shales, Berea grit, Bedford, Cleveland, Erie, Huron shales, Hamilton group (limestones and shales), corniferous limestone.

Jackson County

1852. [Jackson Co.] Rept. on the geology of the route surveyed for the Cincinnati, Hillsboro' and Parkersburg R.R.; by W. W. Mather. (7 A.R. bd. agric. 1852: 241-249.)
On mineral springs, limestone, Waverly sandstone, conglomerate, coal formation, of the coal trade to Cincinnati: comparative estimate of cost of coal placed in Cincinnati, buhr-stone, marble, salt, lumber, agric. and hortic. products.

1870. Geology of Jackson Co.; by E. B. Andrews. (Rept. of progress of geol. survey 1870: 127-162.)
Washington, Milton, Lick, Jackson, Liberty, Scioto, Franklin, Bloomfield, Hamilton, Jefferson, Madison townships; general discussion of co.; rich in coal and iron ores; limestone; acct. of furnaces in each township.

Jefferson County

[1877.] Rept. on geology of Jefferson Co.; by J. S. Newberry. (Rept. of geol. survey v. 3, pt. 1: 716-780, pl.)
Surface features; geol. structure; upper coal group; lower barren measures; lower coal group; analyses of coals, iron ores, fire-clays, limestones, etc., by Prof. T. G. Wormley; analyses of iron ores by J. L. Cassells; sections of strata, etc.

Kelly's Island

1873. Geology of islands in Lake Erie; by J. S. Newberry. (Rept. of geol. survey v. 2, pt. 1: 197-205.)
Topography, etc.; soil and vegetation; Kelly's Island; geol. structure (limestone); Middle, Rattlesnake, Sugar, Put-in-Bay islands.

Knox County

[1873.] Geology of Knox Co.; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 325-347.)
Location and topography; timber; geol. structure; shales, Waverly conglomerate, petroleum and gas; analysis of gas from wells.

GEOLOGY—cont'd

Lake County

1871. Geology of Lake Co.; by M. C. Read. (Rept. of geol. survey v. 1, pt. 1: 510-519.)
Topography; Cuyahoga shale; berea drift, Bedford shale; Cleveland shale; Huron shale; soil, drift and Lake ridges; fossils.

Lawrence County

1870. Geology of Lawrence Co.; by E. B. Andrews. (Rept. of progress of geol. survey 1870: 181-213.)
Washington, Decatur, Symmes, Elizabeth, Aid, Mason, Hamilton, Upper Lawrence, Windsor, Rome, Perry, Fayette, Union townships; furnaces; limestone; coal; general geol. features.

1884. Map of Lawrence Co. and Scioto and Gallia cos. in part, scale, 1 in = 2 mi.; by J. N. Bradford. (No. 8 acc. rept. of geol. survey v. 5.)

Licking County

[1873.] Geology of Licking Co.; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 348-361.)
Topography, surface deposits; geol. structure; carboniferous conglomerate, shales, Waverly conglomerate; archæology.

Logan County

[1878.] Geology of Logan Co.; by Franklin C. Hill. (Report. of geol. survey v. 3, pt. 1: 482-490.)
Situation and area; soil and timber; natural drainage; geol. structure; shale, slate, limestone, sandstones; material resources: agric., bldg. stone, marl, gravel.

——. Geol. map of Logan and Champaign cos.; by Franklin C. Hill. (*Same* v. 3, pt. 1: facing p. 491.)

Lorain County

1873. Geology of Lorain Co.; by J. S. Newberry. (Rept. of geol. survey v. 2, pt. 1: 206-224.)
Surface features, especially lake ridges; geol. structure; economic geol.: berea grit (particularly Amherst stone), Elyria quarries, petroleum, gas springs, peat and marl, iron ore; ancient earthworks.

Lucas County

1870. Geology of Lucas Co.; by G. K. Gilbert. (Rept. of progress of geol. survey 1870: 492-499.)
Topography, geological structure: Guelph group, waterlime and Onondaga salt groups, corniferous group, Hamilton group, Huron shale; surface geology: glacial striæ, superficial deposits; soils; economic geology: bldg. stone, lime, water supply; mnftres.: pig iron, bricks, artificial sandstone.

[1871.] Geology of Lucas Co.; by G. K. Gilbert. (Rept. of geol. survey v 1, pt. 1: 573-587, map.)
Topography, geol. structure: Guelph, Onondaga, waterlime, corniferous, Hamilton and Huron groups; surface geol. and soils; economic geol.; bldg. stones (limestone, hydraulic cement, glass, sand, clay, gypsum, water); mnftre. of pig-iron and artificial sandstone; vegetation; antiquities.

Madison County

[1878.] Geology of Madison Co.; by Edward Orton. (Rept. of geol. survey v. 3, pt. 1: 420-428.)
Topography; geol. series; drift and soils; water supply.

Mahoning County

[1878.] Rept. on geology of Mahoning Co.; by J. S. Newberry. (Rept. of geol. survey v. 3, pt. 1: 781-814, pl.)
Surface features, geol. structure: Waverly group, conglomerate, coals, blackband iron ore, bowlders in blackband iron ore; bowlders in blackband and coal, white limestone; local geology: Milton, Jackson, Austintown, Youngstown, Coitsville, Poland, Springfield, Beaver, Boardman, Canfield, Ellsworth, Berlin, Smith, Goshen, Green; analyses of coal, iron ore and limestone.

Marion County

[1872.] Geology of Marion Co.; by N. H. Winchell. (Rept. of geol. survey v. 1, pt. 1: 640-645, map.)
Situation and area; natural drainage; surface features and soil; geol. structure; limestone, slate, shale, sandstone, drift; material resources: gravel, clay, stone, slate.

GEOLOGY—cont'd

Maumee Valley

1871. Rept. on surface geology of Maumee Valley; by G. K. Gilbert. (Rept. of geol. survey v. 1, pt. 1: 537-556, 2 maps.)
Glacial epoch; glacial markings moraines; Erie clay; depth of drift in Williams, Fulton and Lucas cos.; post-glacial epoch.

Medina County

[1878.] Geology of Medina Co.; by Alfred W. Wheat. (Rept. of geol. survey v. 3, pt. 1: 362-380, map.)
Topography, geol. structure: coal measures, carboniferous conglomerate, Waverly series; economic geology; coal, iron, bldg. stone, mineral paint; local geology.

Meigs County

1872. Geology of Meigs Co.; by E. B. Andrews. (Rept. of geol. survey v. 1, pt. 1: 247-293.)

Mercer County

1873. Geology of Mercer Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 410-414.)
Situation and area; natural drainage; surface features and soil; geol. structure: limestone, drift; material resources: agric., clays for brick, tiling and red pottery—list of establishments.

Miami County

[1878.] Geology of Miami Co.; by John Hussey. (Rept. of geol. survey v. 3, pt. 1: 468-481.)
Surface; wells; drainage; drift; bowlders; remains; public improvements; bedded rock; Niagara, Clinton formations, blue limestone of Cincinnati group.

Monroe County

1874. Geology of Monroe Co.; by E. B. Andrews. (Rept. of geol. survey v. 2, pt. 1: 570-587.)

Montgomery County

1869. Rept. on geology of Montgomery Co.; by Edward Orton. (Rept. of progress of geol. survey, 1869 ed. 2: 143-171, map.)
General features; acct. of formations (blue limestone, Clinton, Niagara, drift); bldg. rock; brick; draining tile and pottery clays, firestone, lime, mineral, paints, gravel, agric. relations of different formations of Montgomery Co.
Paging from 1871 ed.

——. Same, in German. Bericht über die Geologie von Montgomery Bezirk. Edw. Orton.

Morgan County

[1871/2.] Geology of Morgan Co.; by E. B. Andrews. (Rept. of geol. survey v. 1, pt. 1: 294-313.)

Morrow County

1873. Rept. on geology of Morrow Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 253-271, map.)
Situation and area; natural drainage, surface features: soil and timber; geol. structure: shales and sandstone, quarries, drift, wells and springs; material resources; quicklime, bldg. stone, brick, salt, agric.

Muskingum County

1838. Geological structure of Muskingum, Franklin and Licking cos.; shale, limestone, sandstone, coal, tertiary deposits, granite, clay, sand, etc. (2 A.R. geol. survey 1838: 75-106.)

——. Physical geography of Muskingum, Licking and Franklin cos. (2 *same* 1838: 75.)

[1872.] Geology of Muskingum Co. [so. of Central O. R.R.]; by E. B. Andrews. (Rept. of geol. survey v. 1, pt. 1: 314-344.)
General features; Hopewell Falls townships; Zanesville corporation; Springfield, Newton, Clay, Brush Creek, Washington, Wayne, Harrison, Perry, Union, Salt Creek, Rich Hill, Blue Rock, Meigs townships.

GEOLOGY—cont'd

Muskingum County—cont'd

[1878.] Geology of Muskingum Co. north of Central Ohio R.R.; by J. J. Stevenson. (*Same* v. 3, pt. 1: 237-260.)
Topography and surface geology; general geology; local geology: (Jackson, Licking, Cass, Muskingum, Madison, Washington, Adams, Salem, Highland, Union townships); summary: coal, iron, clays, bldg. stone, limestone, water.

1884. Map of Muskingum Co. and Licking and Perry cos., in part, scale, 2 mi. = 1 in.; by J. N. Bradford. (No. 5 acc. rept. of geol. survey v. 5.)

Noble County

1874. Rept. on geology of Noble Co.; by E. B. Andrews. (Rept. of geol. survey v. 2, pt. 1: 509-528.)
Topography; Brookfield, Sharon, Jackson, Olive, Noble, Buffalo, Seneca, Wayne, Beaver, Center, Marion, Enoch, Stock, Elk, Jefferson townships; coal chief product; little limestone and petroleum.

Ottawa County

1873. Geology of Ottawa Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 227-235, map.)
Position and area; natural drainage; surface features; character of soil and timber; geol. structure: Niagara limestone, Saline shale, waterlime, drift, wells and springs; material resources: bldg. stone, gypsum, lime.

Paulding County

1873. Geology of Paulding Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 335-351, map.)
Situation and area; natural drainage; surface features; soil and timber; geol. structure; limestones, drift, wells and springs; material resources: stone and brick, furnaces (on acct. of timber growth) for smelting iron ores—list.

Perry County

[1878.] Suppl. rept. on Perry Co. and portions of Hocking and Athens cos.; by E. B. Andrews. (Rept. of geol. survey v. 3, pt. 1: 815-882.)
Summary of work of 1869; geol. formations; Waverly sandstone group, Maxville limestone, coal measures, drift; iron ores; analyses of ores.

Pickaway County

1872-1873. Geology of Pickaway Co.; by E. B. Andrews. (Rept. of geol. survey v. 2, pt. 1: 588-592.)
Surface geology; geol. formations; slate, limestone, shales, etc.

Pike County

1874. Geology of Pike Co.; by Edward Orton. (Rept. of geol. survey v. 2, pt. 1: 611-641, 4 pls.)
Situation and topography; geol. structure; limestone, slate, shales, conglomerate, coal, drift, etc.; soils; water-supply.

Portage County

[1873.] Geology of Portage Co.; by J. S. Newberry. (Rept. of geol. survey v. 3, pt. 1: 133-150, map.)
Surface features and deposits; geol. structure; coal measures; fire clay; altitudes of various places above Lake Erie.

Portsmouth

1838. Portsmouth; encroachment of Scioto River; geological structure of land at Portsmouth; recommended that channel of Scioto be changed in order to prevent destruction of Portsmouth. (2 A.R. geol. survey 1838: 70-71, pl.)

Preble County

1838. Details of journey through Preble, Montgomery [and Miami] cos. in order to determine dip; acct. of geological features, especially limestone; Camden; Camden to Eaton; Eaton to Dayton; Light's quarry; Dayton to Troy; cascades; chalybeate spring, near West Charleston; boulders, near Dayton. (2 A.R. geol. survey 1838: 223-236, 2 pls.)

GEOLOGY—cont'd

Preble County—cont'd

[1878.] Geology of Preble Co.; by Edward Orton. (Rept. of geol. survey v. 3, pt. 1: 404-419, map.)
Topography; geol. series (mostly limestones); drift; fossils.

Putnam County

1873. Geology of Putnam Co.; by N. H. Winchell. (Rept. of geol. survey v. 3, pt. 1: 404-419, map.)
Situation and area; natural drainage; surface features and soil; geol. structure: waterlime and sandstone, drift; material resources: bldg. and road materials, bog ore; wells and springs.

Richland County

[1878.] Geology of Richland Co.; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 310-324.)
Topography; soil; surface deposits; gold; iron ore; geol. structure: Waverly conglomerate, sandstones, etc.; economic geology.

——. Geol. map of Richland, Ashland, Wayne, Knox, Holmes, Coshocton and Licking cos.; by M. C. Read. (*Same* v. 3, pt. 1 facing p. 529.)

Ross County

1874. Geology of Ross Co.; by Edward Orton. (Rept. of geol. survey v. 2, pt. 1: 642-658.)
Situation and topography; geol. series: limestones, shales; drift deposits; soils; dip of strata.

[1874.] Map of Highland, Ross and Pike cos., showing geol. formations, dip of strata, elevation, etc.; [by Edward Orton?]. (*Same* v. 2, pt. 1: facing p. 611.)

Sandusky County

1871. Geology of Sandusky Co.; by N. H. Winchell. (Rept. of geol. survey v. 1, pt. 1: 594-610, map.)
Situation and area; natural drainage; surface features; soil and timber; geol. structure; Oriskany sandstone; corniferous limestone; drift; material resources; wells and springs.

Scioto County

1870. Geol. of Scioto Co.; by E. B. Andrews. (Rept. of progress of geol. survey 1870: 163-177.)
Madison, Harrison, Bloom, Porter, Clay, Veron, Green townships; fire-clay, chief product; coal and iron; description of furnaces in each township.

Seneca County

1871. Geology of Seneca Co.; by N. H. Winchell. (Rept. of geol. survey v. 1, pt. 1: 611-624, map.)
Situation and area; natural drainage; surface features; soil and timber; geol. structure; drift; material resources: bldg. stone, lime, clay, bog-iron ore.

Shelby County

1847. Recommendation that legislature appropriate portion of heavy tax exacted from agric. community, for a geol. (i. e. soil) survey of Shelby Co. (2 A.R. bd. agric. 1847: 86.)

[1878.] Geology of Shelby Co.; by John Hussey. (Rept. of geol. survey v. 3, pt. 1: 448-467.)
Situation; elevation of co.; topography; soil; rainfall; Loramie reservoir; drift; remains; bedded stone; fossils.

Stark County

[1878.] Geology of Stark Co.; by J. S. Newberry. (Rept. of geol. survey v. 3, pt. 1: 151-176.)
Surface geology; geol. structure (chiefly coals and blackband iron ore).

Summit County

[1872.] Rept. on geology of Summit Co.; by J. S. Newberry. (Rept. of geol. survey v. 1, pt. 1: 201-222, map, pl.)
Surface features and deposits; geol. structure: Erie shale; Waverly group: Cleveland, Bedford shales, Berea grit, Cuyahoga shale, coal measures, coals no. 2, 3, 4; Economic geology; coal no. 1, iron ore, coals no. 3 and 4, fire-clay.

GEOLOGY—cont'd

Trumbull County

1871. Geology of Trumbull Co.; by M. C. Read. (Rept. of geol. survey v. 1, pt. 1: 493-509.)
General features; coal measures; coal no. 2; conglomerate; Cuyahoga shale; Berea drift; Bedford shale; peat.

Tuscarawas County

1838. Tuscarawas Co.; geological position; "calcareo-silicious rock"; sandstones (incl. description of Zoar and other quarries); limestones and hydraulic lime; shales (varieties and uses); coal (coal of Tuscarawas Valley, coal of tributaries of Tuscarawas, etc.); iron ores; mineral springs. (2 A.R. geol. survey 1838: 145-154.)

[1878.] Rept. on geology of Tuscarawas Co.; by J. S. Newberry. (Rept. of geol. survey v. 3, pt. 1: 52-89, map, 2 pls.)
Surface features and deposits; geol. structure: coal no. 1, no. 3, no. 3a, no. 4, limestones and clays, coal no. 5, no. 5a, no. 6, Mahoning sandstone and coal no. 6a, coal no. 7 and its iron ores; fire-clay, fire-stone, bldg. stone, salt, bromine; analyses of iron ores, coals, fire-clays, cokes, limestones.

Union County

1873. Geology of Union Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 324-334, map.)
Situation and area; natural drainage, surface features; soil and timber; geol. structure: limestones (Hamilton, Lower corniferous, Oriskany, waterlime), drift, wells and springs; material resources: bldg. stone, brick and tile establishments, agric.

Van Wert County

1873. Geology of Van Wert Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 314-323, map.)
Situation and area; natural drainage; surface features; soil and timber; geol. structure: Niagara limestone, waterlime, drift, wells and springs; material resources: lime, brick and tile establishments.

Vinton County

1870. Geol. of Vinton Co.; by E. B. Andrews. (Rept. of progress of geol. survey 1870: 92-126.)
Brown, Madison, Swan, Jackson, Richland, Elk, Vinton, Clinton, Wilkesville townships; summary of co. geology; coal and iron chief deposits, some limestone; description of furnaces in each township.

1884. Map of Vinton and Jackson cos. and Gallia Co. in part, scale, 1 in. = 2 mi.; by Edward Boggs. (No. 7 acc. rept. of geol. survey v. 5.)

Warren County

[1878.] Geology of Warren Co.; by Edward Orton. (Rept. of geol. survey v. 3, pt. 1: 381-391, map.)
Topography, geol. scale: Cincinnati, Clinton and Niagara limestones; drift; archæological remains.

Washington County

1874. Geology of Washington Co.; by E. B. Andrews. (Rept. of geol. survey v. 2, pt. 1: 452-508.)
Situation, topography, etc.; soil; general geol. features, formations in each township, coal, limestone, salt, petroleum, etc.

Wayne County

[1878.] Geology of Wayne Co.; by M. C. Read. (Rept. of geol. survey v. 3, pt. 1: 529-539.)
Topography; geol. structure; sub-carboniferous conglomerate; Waverly.

West Sister Island

1871. Geology of West Sister Island; by G. K. Gilbert. (Rept. of geol. survey v. 1, pt. 1: 588-590.)
Topography; geol. structure, economic geol.: gypsum, wall stone, etc.

Williams County

1870. Rept. on geology of Williams Co.; by G. K. Gilbert. (Rept. of progress of geol. survey 1870: 485-490.)
Geol. structure, surface geology: lake beaches, artesian wells, mineral water, soils, forest vegetation.

GEOLOGY—cont'd

Williams County—cont'd

1871. Geology of Williams Co.; by G. K. Gilbert. (Rept. of geol. survey v. 1, pt. 1: 557-566.)
Topography; geol. structure; map; surface geol. and soils; economic geology: muck marl, and bog-iron ore, bldg. materials, petroleum, water, Stryker mineral water; vegetation; antiquities.

Wood County

1838. Representation of relative position and thickness of strata in O. and their relation to Wood, Crawford, Athens, Hocking and Tuscarawas cos.; by C. Briggs, Jr. Pl. betw. pp. 108 and 109. (2 A.R. geol. survey 1838.)

——. Wood Co.; surface of country, geological position limestone deposit, description, economical uses, localities, limestone of Maumee Valley; superficial materials resting on limestone of Wood Co., clays, sand, gravel and pebbles, boulders of primitive rocks, peat, bog iron ore, watersprings. (2 A.R. geol. survey 1838: 110-118.)

1873. Geology of Wood Co.; by N. H. Winchell. (Rept. of geol. survey v. 2, pt. 1: 368-386, map.)
Situation and area; natural drainage; surface features and soil; geol. structure; limestones, sandstones, etc., drift; material resources: agric., forest, bldg. stone, lime, clays.

Wyandot County

[1872.] Geology of Wyandot Co.; by N. H. Winchell. (Rept. of geol. survey v. 1, pt. 1: 625-639.)
Situation and area; natural drainage; surface features; character of soil; geol. structure; drift; material resources.

Laws

1889. Law passed Apr. 12 providing for extension of geol. survey of state. (Geol. survey, 4th series, bull. 1: ii.)

——. Same. (*Same* bull. 2: x-xi.)

——. Same. (*Same* bull. 3: xi.)

1902. Text of law providing for publication and distribution of repts. of state geologist, passed May 12. (Geol. survey 4th series, bull. 1: xi-xii.)
Repeated in later Bulletins.

Library.

1903. Suggested that geol. library be provided. (Geol. survey, 4th series, bull. 1: xxi.)

1904. Sen. res. rel. to creation of depository for library of geol. survey; agreement betw. bd. of trustees of University and geol. survey rel. to turning over books of survey to library of University. (*Same* bull. 2: xiii-xv.)

Receipts and Expenditures

1870. Rept. of house committee on retrenchment (Gaston) on expenditures of geological survey. (House jol. 1871 app. pp. 149-176.)
Includes auditor's stmt. of disbursements from Nov. 15, 1869, to Jan. 31, 1870; testimony of Chas. Whittlesey, Feb. 10, 1876; letter from L. Lesquereux as to best manner of conducting geol. survey of state; testimony of E. B. Andrews; testimony of Chas. Whittlesey, Feb. 9, 1870, etc.
Minority rept. by M. J. Williams and Wm. Adair, pp. 169-174.

1872-1874. Payments on acct. of apprn. for continuing geological survey. (A.R. auditor 1871/2 app. (pp. 50-52)—*same* 1873/4.)

The copy of this message in the N. Y. Public Library is inscribed "With the compliments of the author." On p. 5 of the message is printed a statement showing the revenue for state purposes from direct taxation for the year ended Nov. 15, 1844, to have been $745,640 and for canal purposes $135,570. In the N. Y. Public Library's copy there is a marginal ms. correction referring to these two statements indicating that they are transposed in the printing. The correction is by the same hand as the inscription.

(27 A.R. bureau labor statistics 1903 (pp. 91-103)—*same* 1904.)

The collation of county statistics below is of returns which originated in a circular issued by the state board of agriculture in 1846 (for text see 1 ann. rept. bd. agric. 1846: 17). The circular was sent to individuals in the various counties, the agric. societies provided for by the act of 1846 not having had an opportunity for general organization. The circular was issued again the following year with some modification in the interrogatories, and, it is believed, each year thereafter until 1851. In this year none were issued as it was thought not desirable by the president of the state bd. of agric. to do so, but to leave the officers of the agric. societies to comply with the law as they might deem best. The industrial returns consequently slackened until by 1855 they had disappeared entirely from the county reports. In some cases they appear to have been carefully collected, in others the statements made are estimates. They rarely appear with any degree of prominence, being submitted as part of the text of the county report. For this reason and because returns of any sort on this subject are so meager for these early years they have been segregated and grouped in the following tabulation.

OHIO—cont'd

1892-1896. Condition of wool industry—losses of Ohio and other states on free wool; condition of farmers who own sheep; the woolgrowers' bill; what is ample protection for wool; cost of producing wools in U. S.; competing wools; duties on different varieties of wool, etc. (51 A.R. bd. agric. 1896: 578-605.)

1895. Res. adopted by O. Wool Growers' Assn. rel. to free wool provision of tariff act of Aug. 27, 1894. (29 [i. e. 49] *same* 1894: 618-619.)

——. Address by T. L. Morris at mtg. of O. Wool Growers' Assn. (29 [i. e. 49] *same* 1894: 616-618.)
On wool industry and the tariff.

——. Address of Judge Wm. Lawrence at mtg. of O. Wool Growers' Assn. (29 [i. e. 49] *same* 1894: 607-616.)
Free wool a political crime, a blow inflicted on interior states, a conspiracy agst. a sound money system, ruin to wool growers; new tariff law odious in its sectional discrimination agst. farmers of the great interior; why discriminate agst. wool growers; what shall wool growers do? what shall we do with our sheep? state universities—textile industries; in all principal cities there should be organized one or more cos. to sort, scour and sell wool for wool growers.

1895-1896. Res. adopted by Agric. Convention asking that mnftrer. of woolen goods be compelled to label his goods so as to show per cent of wool, cotton, shoddy, animal hair, etc., contained therein. (49 *same* 1894 (p. 241)—50 *same* 1895.)

1896. Discussion at mtg. of O. Wool Growers' Assn. of free wool tariff act; res. adopted. (50 *same* 1895: 547-562.)

——. Same. (7 A.R. farmers' institutes 1896/7.)
Condition of sheep husbandry in the U. S., 1892-1894; effect of free wool, 1892-1896; what O. lost by free wool; why the loss of sheep was not greater in all states; condition of farmers who own no sheep—all industries suffering; greatest need is a wool tariff; wool-growers' bill—12 cts. duty—reasons in support of it; what is ample protection for wool—how ascertained; cost of producing wools in the U. S.; how sheep husbandry declined in Texas under tariff act of Oct. 1, 1890; competing wools; why all wool tariff acts gave double duty on washed merino and treble on scoured; skirting to defraud the tariff; sorting; peculiarity of Australian merino—how it reduces tariff benefit; on fine wool the law as in operation only gives half the protection it intended; "protective benefit" on 12 cts. duty on unwashed Australian merino; remedy for wrong to Amer. wool-growers to South Amer. republics; duty on long wools of mutton breeds; weak point in wool-growers' bill; duty on third-class wools; foreign wools, rags, shoddy, etc.; ann. increase of wool duties; conference with wool mnftrers.

——. Res. adopted by O. Wool Growers' Assn. rel. to tariff on wool, etc. (51 A.R. bd. agric. 1896: 607.)

KILBOURN (BYRON), 1801-1870

Sometime during the close of the year 1823 Kilbourn acepted employment by the Ohio canal commission as asst. engr. He remained in the employ of the comn. until the latter part of 1832. In 1826 he was engaged on the Miami Canal. In 1829 he was engaged as superintending engr. on the Ohio Canal from Caldersburgh to Deep Cut.

In the following year and during 1831 he was employed as resident engr. at a salary of $60 per month. Towards the close of 1832 Kilbourn's health gave out and he resigned from the service of the Ohio canal comn. In 1833 he had recovered and was engaged in superintending the construction of the Milan Ship Canal, Ohio, for a private company. Byron Kilbourn was the son of James Kilbourn (1770-1850) who was General Agent for the Scioto Co., and a cousin of John Kilbourn (1787-1833) the compiler of "Public documents concerning the Ohio canals."

Kilbourn came of Conn. stock. He left Ohio early in 1834 and went to Wisconsin, of which state he became one of the prominent citizens. Together with Solomon Juneau he founded the city of Milwaukee. His history, from this time on, is well known, and this note is made here, in order to preserve a less well-known portion of the life of Byron Kilbourn, as well as to contribute to the history of the population out of which came the men who helped build the institutions of this section of our country. See also references under Wisconsin.

ANNUAL REPORTS

Act of Apr. 4, 1884, provided for the office of inspector of workshops and factories, providing for one inspector. The office was created to satisfy the demands for such service and was entirely experimental in its character and intended to test the advisability of its introduction into the state. On April 29, 1885, the legislature amended the original act creating the office, by dividing the state into three districts and giving the department one chief inspector and three district inspectors.

Salt Lands

By sec. 3 of Act of Congress of May 18, 1796, the U. S. reserved from sale for future disposal, a salt spring lying upon a creek which emptied into the Scioto River, on the east side, together with as many contiguous sections as should be equal to one township, and every other salt spring which might be discovered, together with the section of one mile square which included it, and also four sections at the center of every township, containing each one mile square. By the act of April 13, 1802, "the six-mile reservation, including the salt springs, commonly called the Scioto Salt Springs, the salt springs near the Muskingum river, and in the Military tract, with the sections of land which include the same," were granted to the State of Ohio, "for the use of the people thereof, the same to be used under such terms. . . . . as the Legislature . . . . should direct, provided that said Legislature should never sell the land nor lease the same for a longer period than ten years." In 1816 Congress authorized the state to select and to sell one of the reserved sections, "but not to include the salt springs," the money arising from the sale to be applied toward the erection of a public building for Jackson Co. An Act of Congress of Dec. 28, 1824, authorized the sale of so much of the above grants as remained unsold, the proceeds to be applied to such literary purposes as the Legislature might thereafter direct and to no other use whatever. These lands were subsequently sold by the State, and the proceeds were paid into the Treasury and denominated the Salt Fund. An Act of the General Assembly of March 2, 1831, established a fund for the support of common schools to consist of the net amount paid into the treasury from sales of salt lands, etc. The same act pledged the state to pay interest annually on the money provided the interest be funded annually until Jan. 1, 1835. In 1838, a school fund of $200,000 per annum, consisting of the interest on surplus revenue, proceeds of salt lands, etc., was established. Subsequent acts providing support for the school fund, continued the interest upon the proceeds of sales of salt lands as a part of the school fund. The Act of March 14, 1853, to provide for the reorganization, etc., of common schools provided for the maintenance of the school fund only from tax levies. In his report for 1860 the auditor remarks: "The laws now in force for the support of schools have no reference to the salt fund, and no interest as such has been paid on this fund since 1845. It is probable that the Legislature intended wholly to absorb this and other special funds in the increased levy authorized by the act of 1853; and the liberal annual provisions for the support of schools now permanently established, makes this salt fund unimportant in amount, and it is recommended that the fund be treated as already exhausted, and the accounts thereof in the Departments balanced."

1800. Feb. 19. Rept. of U. S. committee (Harrison) apptd. to inquire into alterations necessary in laws providing for sale of lands of U. S. n. w. of the Ohio; destructive waste of timber by those engaged in salt mnftre. on the west side of the Scioto, on the east of the Muskingum and near the Great Miami; recommended that all salt springs and licks, property of U. SECTION SIXTEEN

The first land reservation for school purposes by Congress was that made by the continental congress in the ordinance of May 20, 1785, reserving lot no. 16 of every township for the maintenance of public schools within the township. This was an endowment of 640 acres of land for the support and maintenance of schools within the township and it advanced and established a principle which finally dedicated 1/36 part of all public lands of the U. S. with certain exceptions as to mineral lands, etc., to the cause of public education. The manner of establishment of public schools was not mentioned. This provision in the ordinance of 1787 relating to the reservation of the sixteenth section was the inception of the present rule of reservation of school sections.

The Act of July 23, 1787, had the effect of making the reservation of the sixteenth section perpetual. Up to 1802 no transfers by the U. S. of title or control of the sixteenth section of reserved school lands had been made. In the enabling act of April 30, of that year, the reserved land was granted to the people and by the Act of March 3, 1803, the control of these lands was vested in the legislature of the state of Ohio. The area of this land was 704,488 acres.

CONGRESS LANDS

All lands belonging to the general government to which the Indian title has not been extinguished. They are sold by the immediate officers of the government in accordance with laws enacted by Congress. Their location is shown in a map in Winsor's Westward Movement.

1800. Feb. 18. Rept. in part, of the U. S. committee apptd. Dec. 24, last, to enquire what alterations are necessary in the laws authorizing the sale of lands of the U. S. north-west of the Ohio, n. t. p. 5 pp.

A U. S. document. Copy in the N. Y. Public Library.

This report was made by William Henry Harrison, delegate in Congress from the Territory Northwest of the Ohio. This was the first time that a territorial delegate had been made chairman of a committee in Congress. Up to that time public lands of the U. S. could only be purchased in tracts of 4000 acres. Delegate Harrison made his report accompanied by a bill authorizing the public lands to be sold in alternate half and quarter sections. The House passed the bill but the Senate objected to it and it went to a committee of conference of which Mr. Harrison was a member. A compromise by which the public lands were to be sold in whole and half sections was agreed on, and under the Act as passed emigration was directed into Ohio.

CONNECTICUT WESTERN RESERVE

Under her charter of 1662 from Charles II Connecticut claimed the land between the 41 and 42 parallels north latitude from Providence Plantation on the east to the Pacific Ocean on the west, with the exception of New York and Pennsylvania colonies.

In 1780 Connecticut tendered to Congress the cession of her claims to western lands with certain provisional restrictions which were the grounds of the refusal on the part of Congress, of the tender. Again in May, 1786, the cession was tendered and on the 26th of that month it was accepted by Congress.

The deed of cession, dated Sept. 13, 1786, yielded to the U. S. soil and jurisdiction over all Connecticut claims west of a meridian passing 120 miles west of the west boundary of Penn. and extending westward to the Mississippi River, with 41° north for its southern boundary and 42°, 2′ for its northern boundary. In this deed of cession, however, Connecticut reserved a tract of land of 3,800,000 acres extending westward from the Pennsylvania line. It is this tract which is known as the "Western Reserve." In Oct. 1797, Connecticut tendered to the U. S. a release of jurisdiction over the Western Reserve which was accepted by the U. S. by Act of April 28, 1800.

The original papers of the Connecticut Land Co. are in the possession of the Western Reserve Historical Socy.

FIRE LANDS

A tract of land of about 781 miles, or 500,000 acres, in the western part of the Western Reserve, including the five westernmost ranges of the Reserve townships. The name originated from the circumstance of Connecticut having granted these lands, in 1792, as a donation to certain sufferers by fire, occasioned by the British during the Revolutionary War, particularly at New London, Fairfield and Norwalk. Sometimes also referred to as "Sufferers' Lands." See also Early political divisions of the regions constituting the fire lands, with a sketch of some of the early territorial and state laws; by A. Sec. 7 of the Enabling Act of April 30, 1802, provided that "the section numbered sixteen, in every township and where such section has been sold, granted, or disposed of, other lands equivalent thereto, and most contiguous to the same, shall be granted to the inhabitants of such township, for the use of such schools; see below, School Lands.

SEVEN RANGES

These were the first ranges of public lands ever surveyed by the general government west of the Ohio River. They are bounded on the north by a line drawn due west from the Pennsylvania state line, where it crosses the Ohio River to the U. S. Military Lands, 42 miles, thence south to the Ohio River at the southeast corner of Marietta township, thence up the river to the beginning. Gen. Rufus Putnam

had been apptd. by the Continental Congress in 1785 to make the survey. He, being engaged in Maine by Massachusetts in the matter of the northeast boundary, obtained the apptmt. of Benjamin Tupper temporarily in his place. As a result of the rept. made by Tupper to Gen. Putnam ,the Ohio Company was organized, with Gen. Putnam, Gen. Samuel H. Parsons and Mannasseh Cutler as directors, for the purchase of lands on the Ohio River immediately west of the seven ranges. SWAMP AND OVERFLOWED LANDS

The first swamp land grant was under Act of March 2, 1849, which was applicable exclusively to Louisiana. On Sept. 28, 1850, Congress passed a second Act extending the former act to Arkansas, and by the fourth and last section of the Act of 1850, the grant was enlarged to include every state in which swamp or overflowed lands might be situated.

U. S. MILITARY DISTRICT

On June 1, 1796, Congress set apart a tract of land for bounties in the Northwestern Territory, for the officers and soldiers serving in the Revolutionary War. The tract covered about 4000 sq. miles, or 2,560,000 acres, and embraced within its limits, in whole, or in part, the counties of Tuscarawas, Guernsey, Muskingum, Monroe, Coshocton, Holmes, Knox, Licking, Franklin, Delaware, Noble and Lake. This tract became known as the U. S. Military District. The land warrants granted by the U. S. under the Act of 1796, were restricted to and located exclusively in this military district until after the passage of the scrip act of May 30, 1830,

by which the revolutionary warrants issued either by the General Government or by Virginia could be exchanged for scrip and the same located either in Ohio, Indiana or Illinois. The U. S. military warrants could also be located in the Military District up to July 3, 1832, when it was provided by an Act of Congress that all the vacant lands therein should be made subject to private sale and the same were disposed of accordingly. Since that time the U. S. warrants could either be converted into scrip under the act of 1830 or they could be located upon any of the public lands subject to sale at private entry. The right to locate expired under Act of June 22, 1860, by limitation on June 22, 1863.

Virginia Military District

This district was located between the Little Miami and the Scioto rivers narrowing north from the Ohio River to a point not much above the Greenville Treaty Line. It was estimated to contain 6,570 sq. miles, or 4,204,800 acres. The land known as the Va. Military District was reserved in the cession by Virginia, in 1784, of her territory northwest of the Ohio, for the purpose of satisfying the warrants issued for services by officers and soldiers during the Revolutionary war. The U. S. assumed this military land obligation of Va. and issued warrants in favor of individual owners. In consideration of the "scrip" act by Congress of Aug. 31, 1852, Virginia granted to the U. S. on Dec. 9, 1852, all the land in the Va. Military District not previously located by warrants. The unsurveyed and unlocated lands in this district were ceded by the U. S. to the state of Ohio on Feb. 18, 1871. They amounted to 74,735.44 acres. On March 26, 1872, they were ceded by the state to the Ohio Agricultural and Mechanical College, their appraised value being $74,287.45.

COLLEGE TOWNSHIPS

Symme's Purchase

Sec. 3 of the Act of May 5, 1792, authorizing the conveyance of certain lands to John C. Symmes, granted to Symmes and his associates in trust for the purpose of establishing an academy and other public schools and seminaries of learning, one complete township within the bounds of the tract known as Symmes', or The Miami, Purchase.

By sec. 4 of the Act of March 3, 1803, control of a complete township, in lieu of that granted to Symmes, was vested in the legislature of the state of Ohio for the purpose of establishing an academy. Out of this transaction grew Miami University. See below, Symmes' Purchase; also Education. Individual Institutions.

Ohio Company's Purchase

In the contract between the Continental Congress and the Ohio Company of Associates, dated Oct. 27, 1787, two complete townships were reserved in the land purchased by the co., for the purpose of a university. The Indian war and other causes prevented the adoption of measures for organizing or locating the university until 1795. In that year the two "college townships," now known as Athens and Alexander townships, containing 72 square miles, and situated in the central part of the purchase, were selected for the use of the University. In 1799, the territorial legislature appointed Rufus Putnam, Benjamin Ives Gilman and Jonathan Stones as commissioners to lay off a town plat which should contain a square for the university. Under this commission the town of Athens was laid out and platted substantially as it now stands, containing a campus of ten acres for the university. The university was incorporated in Jan. 1802, under the name of the American University, but this act was superseded by an act of the state legislature of Feb. 18, 1804, which is still in force and under which the university has continued to act. See Education. Individual Institutions.

DOHRMAN GRANT

Arnold Henry Dohrman was agent for the U. S. at the court of Lisbon during the Revolutionary War. His house was an asylum for American sailors who had been captured by British cruisers. He fed, clothed and nursed these unfortunates. On Oct. 1, 1787, Congress allowed him an amount covering expenditures for which he could produce vouchers. In consideration of expenditures for which he could not produce vouchers satisfactory to the Treasury Dept. he was granted the thirteenth township in the seventh range free of cost of survey or other charges.

DONATION TRACT

A body of 100,000 acres, set off in the northern limits of the Ohio Company's purchase, and granted to them by Congress (sec. 3, Act of April 21, 1792), provided the co. obtain one actual settler upon each 100 acres of the company's tract, within five years from the date of the grant. So much of the 100,000 acres as should not be thus taken up reverted to General Government. This tract may in some respects be considered a part of the Ohio Company's purchase. It lies in the northern limits of the present Washington county in an oblong shape about 17 miles from east to west and 7½ north and south.

FRENCH GRANT

The French grant to the French inhabitants of Gallipolis was made by Congress on March 3, 1795.

On Oct. 27, 1787, the Treasury Board of the Continental Congress having the power of commissioners of public lands, contracted with the Ohio Company for the sale to the co. of certain lands in the Northwest Territory. Manasseh Cutler and Winthrop Sargent, directors in the co., assigned on Oct. 29, 1787, a moiety of the land described in the contract to William Duer and associates of New York.

Duer and his associates became the Scioto Company (see Land. Scioto Company). Joel Barlow was sent to Europe to dispose of the lands of the co. and did sell to companies and individuals in France, who afterwards came to America, were met by Duer and by him sent to Galliopolis on the Ohio River. Here each settler was presented with two in-lots and a four acre out-lot. Subsequently these locations were discovered to be outside of the lands embraced in the first contract between the U. S. and the Ohio Co. as well as outside the land confirmed

to that co. by Act of April 21, 1792. To quiet their title and to give their holdings a legal status, Congress passed several relief bills beginning March 3, 1795. The grant under the Act of 1795, comprised some 24,000 acres bordering upon the Ohio River in the s. e. quarter of Scioto Co. On June 25, 1798, 1200 additional acres were granted adjoining the first grant at its lower end toward the mouth of the Little Scioto River for the relief of such original settlers who were absent in 1795.

MAUMEE ROAD LANDS

A body of lands averaging two miles wide, lying along one mile on each side of the road from the Maumee River at Perrysburg to the western limits of the Western Reserve, a distance of about 46 miles and comprising nearly 60,000 acres. These lands were originally granted by the Indian owners at the treaty of Brownstown in 1808, to enable the U. S. to make a road on the line just mentioned. The general government never moved in the business until Feb. 28, 1823, when Congress passed an Act making over these lands to the state of Ohio, provided she should within four years thereafter make and keep in repair a good road throughout the aforesaid route of 46 miles. See also Roads.

MENISSIER APPLICATION

See Menissier (Francis).

MINISTERIAL LANDS

On July 23, 1787, Congress called attention in the ordinance defining the "powers to the Board of Treasury to contract for the sale of the western territory," to the reservation by the ordinance of May 20, 1785, of four sections in each township, viz., nos. 8, 11, 26 and 29 to the use of the U. S. and for future disposition by Congress, and ordered the Board of Treasury to give lot (i. e. section) 29 in each township or fractional part of a township perpetually for the purposes of religion. This grant was made for this purpose only in the Ohio Company's Purchase and in the Symmes' Purchase. As the purchasers of these two tracts came from parts of the Union where it was customary and deemed necessary to have a regular settled clergyman in every town, they stipulated that a permanent fund in lands be set apart for this purpose in the patent issued to them by President Washington. This is the only direct and specific grant of land for religion to be found upon the U. S. statute books, although some grants have been made for mission purposes.

1811. Feb. 6. Rept. of the U. S. committee on public lands (Morrow) on petition of inhabitants of township 3, range 8, Washington Co., Ohio, praying that sec. no. 26, property of U. S., be granted in lieu of section 29 set apart for support of religion, which is not contained in this township. (Amer. State Papers. Public Lands v. 2: 253-254.)

Section 29 was confined to purchase of the Ohio Co. and that of J. C. Symmes; rept. states mode of designating such section; committee submitted res. "that the petitioners have leave to withdraw their petition."

1827. Jan. 9. Application of O. to be allowed to sell land set apart for religious purposes. (*Same* v. 5: 391.)

MORAVIAN GRANTS

The Continental Congress on May 20, 1785, granted the towns of Gnadenhütten, Schoenbrun and Salem on the Muskingum River for the sole use of the Christianized Indians living there. This was in response to a petition of John Etwein, president of the Moravian Brethren's Socy., for such a grant. The grant was confirmed by the Congress of the U. S. on June 1, 1796.

REFUGEE GRANT

During the War of the Revolution there was a force of Canadian and Nova Scotian officers and men in the American army known as "refugees from Canada." They became refugees on account of their attachment to the American cause. On April 23, 1783, Congress ordered that these refugees be rewarded by grants of land. The ordinance of May 20, 1785, reserved three townships on Lake Erie for the satisfaction of these grants. This was never fully carried into effect, as other lands were appropriated in lieu thereof by the act of July 18, 1801.

LAND GRANTS—cont'd

TURNPIKE LAND GRANT

These lands comprise 49 sections, amounting to 31,360 acres, situated along the western side of the Columbus and Sandusky turnpike, in the eastern parts of Seneca, Crawford and Marion counties. They were originally granted by Congress on March 3, 1827, and more specifically by a supplementary act in the following year. The considerations for which these lands were granted were that the mail stages and all troops and property of the U. S. should forever pass over this road free from toll. See also Roads.

ZANES' GRANTS

On May 17, 1796, Congress granted to Ebenezer Zane three tracts of land, one mile square, one on the Muskingum, which includes the town of Zanesville, one on the Scioto, opposite Chillicothe, and one on the Hockhocking River, on which the town of Lancaster is built, for the purpose of building ferries on the road from Wheeling, W. Va., to Limestone (now Maysville, Ky.), which road he was to open under the direction of the President of the U. S. These grants were confirmed to Zane and patented on Feb. 14, 1800. On April 3, 1802, Congress ordered the same allowance to Isaac Zane, his heirs or assigns, in consideration of his having, when a boy, been taken prisoner by Wyandot Indians during the Revolutionary War and having during the greater part of his life, which he lived with the Indians, shown many acts of kindness and beneficence to Americans. The grants to Isaac Zane are situated in Champaign Co., on King's Creek, from 3 to 5 miles northwest of Urbana. See also Zane's trace; by C. L. Martzolff. (O. Arch. and Hist. Publications, v. 13.)

1796. April 1. Rept. of U. S. committee to whom was referred petition of Ebenezer Zane rel. to ferries in n. w. territory (Amer. State Papers. Misc. v. 1: 145.)

Res. submitted that the petition of Ebenezer Zane is reasonable; that he be authorized to locate warrants, granted by the U. S. for military services, upon three tracts of land, not exceeding one mile square each, at Muskingum, Hockhocking and Scioto, where the proposed road shall cross those rivers, for the purpose of establishing ferries thereon; and that leave be given to bring in a bill for that purpose.

1800. Feb. 21. Rept. of U. S. committee (Harrison) apptd. to inquire into alterations necessary in laws authorizing sale of lands of U. S. northwest of the Ohio and to whom was referred petition of Isaac Zane; recommended that a committee be apptd. to bring in a bill authorizing President of U. S. to convey, in fee simple, to Isaac Zane, 2560 acres of land at Big Bottom, on Mad River. (*Same* Public Lands v. 1: 93.)

Lapham was employed as jr. asst. engr. by the Ohio canal commission as early as 1826. In August of this year his father had secured for him a position under Byron Kilbourn, then asst. engr. on the Miami Canal. In 1827 he went to Louisville, Ky., and for two years was employed on the Louisville and Portland Canal.

In April, 1830, his name again occurs on the pay roll of the Ohio canal commission as jr. asst. engr., and for the next three years he was employed on the Ohio Canal in the vicinity of Portsmouth. In 1833 he was apptd. secy. of the Ohio state board of canal commissioners. See also references under Wisconsin.

Boys' Industrial School, Lancaster

serial

Created by Act of Apr. 5, 1856, as Reform School of Ohio; name changed to Boys' Industrial School Apr. 22, 1885. This institution was recognized throughout the United States as the pioneer of the "family" system for the education and reform of juvenile delinquents. Until 1879 it was frequently called Ohio Reform Farm and School or Reform Farm School. The school was located upon a farm six miles south of Lancaster on what are called the "Hocking Hills."

The earliest legislation upon the subject of idiots and lunatics, in Ohio, was an act of the territorial Governor and Judges, passed Aug. 1, 1792, four years after the organization of the territorial, and ten years before the organization of the state government. It provided for the trial of the question of insanity by a jury and the appointment of guardians, with plenary powers, over estates and persons of the insane, but contained no provision with reference to their safe keeping or remedial treatment. No further legislation upon the subject, worthy of mention, occurred until the passage of act of Feb. 13, 1815, entitled "An Act to provide for the safe keeping of idiots and lunatics." That act re-enacted all the provisions of the preceding acts, and provided further, that the jury should certify, in addition to their other finding "whether such a person ought to be put in close confinement." If their verdict upon this point were in the affirmative, the lunatic was required to be committed to the county jail, unless his friends should give sufficient bond for his safekeeping. If committed to jail, the county commissioners were required "carefully to examine him, and if in their opinion, medical aid should be requisite, to employ a skillful physician." If it were not necessary to confine the lunatic, and he were a pauper, he was required to be supported by the overseers of the poor, in the same manner as was provided by the pre-existing acts.

These provisions continued in force, without any material modification, until the passage of the act of March 9, 1838. Prior to that time there was no private or public institution in the state where the insane could be received and properly treated. A few were confined in the hospital at Cincinnati; others were sent to institutions in other states. The number of insane in the state in 1835, exclusive of idiots and incurables, was estimated at over two hundred. According to returns made to the Governor that year, 294 were supported at public expense, 94 of whom were in confinement.

In January, 1835, the Ohio Medical Convention adopted a memorial recommending the establishment of a lunatic asylum. This was presented to the legislature then in session. By act of March 7, 1835, the Legislature provided for the appointment of trustees, the erection of the edifice and the purchase of the site.

In March, 1838, the legislature passed an act to provide for the government of the Ohio Lunatic Asylum and in Nov. following, the institution was organized and went into operation under the care of the superintendent. It was called Ohio Lunatic Asylum until 1856, Central Ohio Lunatic Asylum until 1874, Central Ohio Hospital for Insane until 1876, and Columbus Hospital for Insane until 1894.

serial

Established by Act of Jan. 22, 1821, as a public infirmary for the erection of which the state appropriated a fund of $10,000, composed of notes of certain specified banks. The trustees of Cincinnati township were made mngrs. of the fund. The associate judges of Hamilton Co. were, by the Act of 1821, made inspectors of the institution and to them the trustees of Cincinnati township were required to make report of the manner of application of their trust. The Institution was opened for all idiots, lunatics and insane persons of the state and for all boatmen belonging to boats of citizens of Ohio and all boatmen belonging to any states or territories lying in whole or in part on the Mississippi River or tributaries, which might erect similar hospitals in commercial places and give to boatmen of Ohio reciprocal treatment. The faculty of the Medical College of Ohio was authorized to maintain medical and surgical supervision over the Institution.

Prior to 1853 the insane poor of Hamilton County who could not be received into the Ohio Lunatic Asylum were placed in the lunatic department of the Commercial Hospital of Cincinnati. At a meeting of medical men, held in Cincinnati in August, 1853, the lunatic department was declared entirely unfit for the proper treatment of the insane, and the commissioners of the county were requested to investigate their condition, and make better accommodation for their comfort. A committee was appointed to examine the lunatic department, and in their report they denounced the building and the provision made for the insane. A temporary asylum was secured in Fairmount, and was opened Nov. 7, 1853, as the Hamilton County Lunatic Asylum. In 1854 a permanent site was purchased at Carthage for a county asylum, and was opened Feb. 1, 1860. (Index Cat. Surgeon General's Library, ser. 1, v. x: 117.)

McIntire Children's Home, Columbus.

John McIntire was the son-in-law of Ebenezer Zane (q. v.). He settled in Zanesville in 1799. By the will of John McIntire, dated March 18, 1815, it was provided that his estate after the death of his wife, should be for the use and support of a poor school to be established in the town of Zanesville for the use of the poor children of the town. In 1855 the public schools had become so well established that there were no longer poor children, educationally speaking, in Zanesville. The present John McIntire Children's Home is now the beneficiary of the will.

1871. Mngmt. of M'Intire Children's Home (Columbus) commended. (5 A.R. bd. of state charities to Gov. 1870/1: 88.)

* In 1836 there had been published a rept. entitled "Rept. of the trustees apptd. to collect information rel. to condition of the blind." 26 pp. (Exec. docs. 1836, no. 10). It may be that the trustees issuing the 1838 rept. regarded this (the 1836) rept. as an ann. rept. and numbered accordingly, but were not sustained by their successors.

1846. Tabular stmt. of statistics of crime. (A.R. Ohio Penitentiary 1845/6 folding table.)

A

The 14th section of the act creating the office of attorney general, provided that annually, on or before Nov. 1, prosecuting attorneys report to the attorney general a particular statistical report of all crimes in their respective counties, specifying the number of persons prosecuted, nature of crimes, result of prosecution, punishment awarded and the costs. Although the requirements of the law were explicit, there was no penalty attached to non-performance, and, in consequence, the returns were never complete. In order that no incorrect impression may be given in quoting from these returns, attention is called in the following collation to the number of counties reporting each year by the numerals in brackets. The whole number of counties in the state was 85 for the statistics through 1866 and 88 for the more recent returns.

1846-1892. Ann. returns of statistics of crime.

WEEKLY HEALTH BULLETIN

In August, 1886, the first of a series of weekly health bulletins, based on reports of prevailing diseases from regular correspondents, was issued. These bulletins were sent to newspapers and to such correspondents as requested copies. The weekly health bulletin was still issued in 1888. In that year the statement was made (Mo. Sanitary Record, v. 1: 102) that "its place has in a measure been taken by the monthly health bulletin published in the Record." There are separates in small quarto sheets for the greater part of the years 1886, 1887 and 1888 in the Surgeon General's Library. Some of them are also reprinted in the 1st to the 4th annual reports of the state board of health.

1887/8-1888/9. Monthly health bulletin giving form of disease in order of prevalence, % of observers reporting disease, and no. of cases reported for two consecutive years. (4 A.R. bd. health 1888/9: 74-85.)

Covers the period for the 4 wks. ending Nov. 11, 1887, to the 4 wks. ending Oct. 18, 1889.

PUBLIC PRINTING

serial

Under Act of Jan. 4, 1812, "authorizing the secretary, treasurer and auditor to contract with a printer, or printers, and for the distribution of laws and journals." This Act repeals the Act of Jan. 17, 1809, for the more speedy distribution of laws and journals, and also the Act of Jan. 14, 1811, authorizing the secretary, auditor and treasurer to contract with printers in certain cases. By the Act of 1812 the secretary of state was required to report within three days after the commencement of each session of the Gen. Assembly all contracts and proceedings rel. to the printing. The Act of 1811 had made no provision for a report. Subsequent printing laws of this period were passed Dec. 29, 1813, Feb. 18, 1820, repealing former acts, Dec. 29, 1820, supplementary to Act of Feb. 18, and Feb. 2, 1822.

——. Preamble and res. rel. to provision on part of U. S. for completion of roads pledged at conclusion of treaty of Brownstown. (*Same* 1840/1: 705-706.)

Treaty of Brownstown was concluded betw. Supt. of Indian Affairs, on part of U. S. and the Wyandot and other nations of Indians on the other, on Nov. 25, 1808. By this treaty a large quantity of Indian land was granted to the U. S. for the purpose, among other things, of opening two convenient roads from settlements in Ohio to settlements in Mich. territory, one from the Rapids of the Miami of Lake Erie to the western side of the Conn. Reserve and the other to run southwardly from lower Sandusky to the boundary line established by the treaty of Greenville. By Act of Feb. 28, 1823, Congress provided for the construction of so much of said roads as lay betw. the Maumee Rapids and the Conn. Reserve. The intent of the foregoing preamble and res. is to secure the completion of the unfulfilled portion of the federal pledge.

From 1854 to 1859 the entire distance of the road from Springfield to the Ohio River was leased for a period of 10 years. Commissioners were appointed to view the road continually and make the lessees keep it in good condition. (Laws of O. v. 52: 126). The late lessees of the National Road were released from their contract by Act of April 4, 1859, and the control of the road was resumed by the State on June 1, 1859. On June 15, following, the state's resident engr. was placed in charge of the road.

STATISTICS

Statistical returns rel. to a special subject are entered under the subject.
In the ann. rept. of the secy. of state for 1869/70 (p. 129) Secy. Scott gives his reasons for the omission of many tables heretofore published, viz., their inaccuracy. He omits tables of mnfres., mines and miners, water-crafts, etc., furnished by the county auditors under the Act of April 3, 1868. He gives examples of errors in the reports of Hamilton and other counties. Statistics of marriage and divorce and of crimes agst. persons and property are generally accurate, being obtained from court records, but the class of statistics obtained through the estimates of county officers are, he avers, generally inaccurate. Statistics of agricultural products are referred to as worthless.

TAXATION: STATE

Prior to 1826 real estate only was brought upon the duplicate for taxation for state purposes. Funds for county purposes were derived from a poll-tax, and a tax upon horses, mules and cattle, to which was added by legislative appropriation, a percentage, from one-fifth to one-half, varying with the several years, from the taxes levied upon real estate. Under the Act of Feb. 3, 1825, which took effect March 1, 1826, all taxable property was placed upon the grand duplicate, viz.: lands and town lots, including buildings, horses, cattle, pleasure carriages, over the value of $100, and merchants' and brokers' capital, to which was added under the Act of March 14, 1831, "money loaned at interest," and "all grist, oil and saw-mills; all manufactories of iron, glass, paper, clocks and foundries."

Under the Act of March 2, 1846, a new system of taxation was inaugurated, which, with various slight modifications, remained in force until the early nineties. In 1889 the Massie Law was enacted levying a franchise tax of 1/10 of 1% upon the capital stock of domestic corporations. The Carpenter Law of April 15, 1893, required all foreign corporations to file a stmt. with the secy. of state designating a person upon whom service can be made and to pay a fee. The Act amending Sec. 2745 R. S., passed April 1893, required foreign insurance cos. to pay a tax to the counties only upon their net premium receipts, while the difference between this amt. and 2½% on their gross premium receipts, was payable to the comr. of insurance for the privilege of doing business in Ohio. The Hard Law of May 16, 1894, required every foreign corporation having a plant in Ohio to pay a tax of 1/10 of 1% upon the proportion of its capital stock represented by property in Ohio, the object being to place foreign corporations on the same footing with domestic corporations. To bear the expense of the dept. of railroads and telegraphs the Act of April 19, 1894, was passed which provided for an annual assessment of $15,000, apportioned according to gross receipts, upon the railroads of Ohio. The Griffin Law, passed May 24, 1894, was the first act taxing sleeping car companies in Ohio. A direct inheritance tax was levied by Act of April 20, 1894.

1799. Rept. of the jt. committee apptd. to prepare an address to the inhabitants of the territory. (House jol. 1799: 197-198; Council jol. 1799: 89-90.)

Edward Tiffin, Speaker of the House and H. Vander Burgh, President of the Council were the joint committee. The address is general in tone, encouraging prudence, industry and frugality. The committee in asking the approval of the legislature, says: "It must have been easily foreseen that the expences (sic) arising on our entering upon the present stage of government would be considerable. To provide for these expences, a land tax presents itself as the principal, if not the only object of which we can avail ourselves for this purpose—we conceive this the least burdensome to the greatest class of citizens, as no small proportion will be paid by persons living without the territory owning large tracts of land therein."

——. "No law now exists which has revenue directly for its object, except one adopted from the code of Ky. at the last session of the legislature, for subjecting unimproved lands to taxation." (Govs. mess. Sept. 1799.)

——. "As Ky. was not a state when this govt. was erected, the validity of the law is very questionable, and the measures directed to be taken when the assessed taxes are not paid . . . . are not very intelligible. It is very desirable that all laws . . . . that relate to taxation and revenue be free from obscurity; because there is always a disposition particularly to elude the operation of those laws." (*Same* Sept. 1799.)

1800. Rept. of jt. committee on subject of difference in opinion existing betw. Gov. and the Council and House on construction put upon that part of ordinance which relates to laying off of counties. (House jol. 1800/1: 47-49.)

——. Reply of Gov. to address of both houses on subject of difference of opinion existing on that part of ordinance rel. to laying off of counties. (*Same* 1800/1: 61-67.)

——. Establishment of county boundaries advised, present uncertainty of boundaries affects jurisdiction of courts, administration of justice and collection of public revenue. (Govs. mess. 1800.)

1800/73-1805/1904. Summary of grand duplicates of Ohio. (A.R. auditor 1872/3 (p. 34)—*same* 1903/4.)

The tables begin with 1800, except in 1872 and 1874 when they begin with 1826; from 1891 to 1893, with 1802; in 1894 and 1895, with 1803; from 1896 to 1904, with 1805.

Before 1826 the summary shows for each year the no. of acres in 1st, 2d and 3d quality of land and total no. of acres, the rate of taxation per 100 acres on each quality of land and the total taxes.

After 1826 the summary shows for each year the value of realty and of personalty resp., total value of taxable property, state tax and total tax.

1803. Revision of laws laying a tax on lands desirable; lands of resident proprietors should be listed anew and delinquent collectors should be obliged to make account of balances due state; revenue arising from this tax to be wholly reserved for state purposes a proper subject of inquiry. (Govs. mess. Dec. 1803.)

——. Taxation; on neglect of those who have alienated their lands in making proper transfers on books of taxation; locations made by individuals in U. S. military tract, Va. military tract never entered for taxation; provision to prevent embarrassments recommended to legislature. (*Same* March, 1803.)

——. Laws levying a tax on land, the principal source from whence the revenue has proceeded, expiring of themselves, necessity arises of devising a system of taxation which shall operate equally on all. (*Same* March, 1803.)

——. [List of non-residents' lands subject to taxation.] [Title page missing.] At end: Chillicothe (State of Ohio). Printed by N. Willis, Prtr. to the State, n. d. pp. 3-34. obl. 4°.

Only one copy was found by the compiler, viz.. in the Library of Marietta College. That copy is imperfect, lacking the title page. Until this copy was found, the only record of such a separate issue was the report of the committee on the claim of Willis, the printer, for printing the list; see House jol. 1803/4: 219.

1804. Rept. of auditor (Gibson) on measures pursued by him to enforce payment of sums due from delinquent tax collectors. (House jol. 1803/4: 213-214.)

——. Petition of agts. of non-resident proprietors of lands within Ohio Company's purchase praying that for purposes of transfer and taxation lands of non-residents be kept in one district similar to Va. military lands. (Sen. jol. 1804/5: 30.)

This petition was again presented the following year; see Sen. jol. 1805/6, p. 58.

——. On act of last session levying a state tax. (Govs. mess. 1804.)

1805. Laws levying tax on lands never yet revised and are much complained of; comment. (*Same* 1805.)

1805-1824. Auditor's stmt showing different rates of land as charged on resident and non-resident duplicates resp., with total amt. of tax revenue for each year. (House jol. 1824/5: 159.)

The stmt. is rendered as an appendix to the rept. of the committee of finance (Worthington) of 1825.

1806. Rept. of jt. committee apptd. to examine the books of the collector of the Va. Military District. (Sen. jol. 1805/6: 119; House jol. 1805/6: 138-139.)

——. Memorial from auditor of public accts. praying that apprn. be made to discharge claims agst. state where lands have been improperly listed for taxation. (Sen. jol. 1805/6: 59.)

——. Rept. of jt. committee apptd. to apportion taxes collected from non-resident proprietors of land in Va. Military District among the several counties within district. (*Same* 1805/6: 70-71.)

Shows total amts. collected in each year, 1803-1805; total amt. allowed by law for county purposes each year, 1803-1805; and total amts. which should be apportioned for each year, 1803-1805, to the following counties, viz., Hamilton, Warren, Green, Champaign, Clermont, Adams, Scioto, Ross, Franklin and Highland.

1807. Rept. of committee to whom was referred subject of the revenue; recommending that difficulties which have arisen being due to complicated duties of the auditor, it is expedient to create office of register of lands for taxation. (House jol. 1807/8: 41.)

1808. Proc. of Senate and House in jt. session on election of auditor of public accts., collectors of non-resident tax and certain judicial officers. (Sen. jol. 1887/8: 157-159.)

——. Comment on defects of existing tax law. (A.R. auditor public accts. 1807/8.)

1808-1904. Tax schedules. (A.R. auditor 1807/8 (pp. 20-21)—*same* 1903/4.)

A tabular stmt. showing source and amt. of revenue. From 1808 to 1819 the schedule shows acreage resp. of 1st, 2d and 3d rate lands of non-residents in each collection district, do. of residents in each county, and amt. of chargeable tax in each case. The rating of lands was based entirely upon an estimate of their relative fertility.

From 1820 to 1825 the schedules are the same as in the preceding year except that the non-residents' tax is omitted. The amt. of road-tax and of state tax is indicated from 1820/1 to 1824/5.

Beginning with 1826 the sources of revenue were extended. The schedule for that year shows "no. of acres of land in each county, value of same including houses, value of town lots including buildings, no. of horses and cattle and value of same, capital stock of merchants, no. of pleasure carriages and value, amt. of state tax, of county, road, township, and school tax, also the whole amt. assessed for 1826. The schedule remains unchanged to 1829 inclusive. In 1830 a canal tax and a tax on lawyers and physicians was added. In 1833 and to 1835, the schedule shows "no. acres of land in the several counties, the value including houses, mills, manufactories, value of town lots including improvements, no. of horses and value, no. of cattle and value, capital stock of merchants and brokers including money at interest, pleasure carriages and value total amt. of taxable property, state and canal tax, county and school tax, road and township tax, including corporation, poor, poorhouse, courthouse, schoolhouse, county office tax, etc., and tax on lawyers and physicians."

From 1836 to 1844 the schedule continues that of 1833 to 1835 except that a jail and a bridge tax is added. From 1838 to 1845 the words "public buildings" are substituted for jail. After 1845 the aggregate "value of personal property, moneys and credits" is added to the schedule, a tabulation of the personal property (viz. pleasure carriages, watches, pianos, unenumerated articles, merchants' and manufacturers' stock, moneys and credits and other personal property) is given in a separate schedule.

In general the schedule remains the same up to 1852. In that year "r.r. tax" appears for the first time. In 1853 a variation occurs the tax schedule being for the "no. of acres of land and value thereof in several counties; value of real property in cities and towns; value of personal property, moneys and credits, and total value of taxable property, state

tax on property and total amt. of all taxes on duplicate." In addition there is a table continued to 1854, of "total value of all taxable property on duplicate, amt. of taxes levied thereon for county, township, poor and building purposes, amt. for roads, amt. of r.rs., amt. for special school and school house purposes, amt. for all other special purposes, amt. for city, town and borough purposes, and amt. of delinquent taxes with penalty assessed thereon."

From 1853 to 1856 there is a table showing the "value of property appertaining to business of mdse., of mnfg., and of brokerage or private banking, also value of all moneys and credits, and of investments in bonds of U. S. of Ohio and of all incorporated cos. or assns. not taxable in Ohio in their corporate capacity, also value of all other personal property subject to taxation and not included in enumerated articles."

From 1854 to 1904 the schedule shows the "amt. of taxes assessed on grand duplicate of Ohio for county, bridge, poor, building, road, r.r. and township purposes; amt. for township and sub-district school and school house purposes, amt. for all other special purposes, amt. for city, town and special purposes, amt. of delinquent taxes and forfeitures of 1853, with penalty assessed thereon, and total amt. for all other than state taxes in several counties of state."

A table showing "no. of acres of land, and value thereof, in several counties, value of real property in cities and towns, value of personal property, moneys and credits, total value of taxable property, amt. of tax levied by Gen. Assem. for payment of principal of expenses of state govt., for support of state common schools and for purchase of district school libraries, total amt. of state tax, total amt. of all taxes on grand duplicate" appears from 1854 to 1867.

1809. Petition of directors of company incorporated by Ohio by name of proprietors of half million acres of land lying south of Lake Erie called "Sufferers' Land," praying to be refunded amt. of taxes paid on land for 1807. (House jol. 1808/9: 241.)

Sufferers' Land is another name for Fire-lands, which see.

——. Petition of Simon Perkins in behalf of proprietors of that part of Conn. Western Reserve lying west of Cuyahoga River praying that part of taxes of 1807 and 1808 be refunded to them. (Sen. jol. 1808/9: 110.)

1812-1827. Statistical view of amt. of taxes paid by each county, for state and canal purposes; rept. made by auditor (Osborn) to the Senate Feb. 2, 1829. bdside.

One copy only was found by the compiler. viz.. in the Marietta College Library.

In the note of transmittal the auditor remarks: "It will be observed that this office contains no data by which to arrive at the information required with any degree of precision prior to the year 1820. Under the non-resident system in force until that period. it was obligatory on the county collectors to settle with the non-resident collectors, who were bound to settle with the auditor of state, and after deducting the county's proportion of collections to pay the balance for the proper district into the state treasury. From the amt. of county's proportion, I have, however, been enabled to calculate about the net amt. paid by each county prior to 1825; since which period this exhibit is substantially correct."

1813. Rept. of the committee (Pease) to whom was referred the subject of levying an additional land tax. (Sen. jol. 1812/3: 257-259.)

1821. Rept. of select committee (Bailhache) apptd. to inquire whether any provision is necessary to meet demands on treasury during present year. (House jol. 1820/1: 355-359.)

1822. Amt. of moneys recd. into treasury on acct. of taxes on delinquent lands evidence of good policy of law authorizing remission of penalties on payment of taxes and interests due. (Govs. mess. (Trimble) Dec. 1822.)

——. Rept. of conference committee on disagreement on bill levying a state tax. (House jol. 1821/2: 313-314.)

——. Rept. of committee to whom was referred the rept. of the auditor and the treasurer, with instructions to rept. necessary alterations in the laws of the state rel. to revenue, etc. (*Same* 1822/3: 88-92.)

The report was made by Thos. Worthington, of Ross Co. It includes a tabular representation for the years 1821 and 1822 resp., of the assets and liabilities of the state. The committee proposes the diversion of the road tax for one year only to the liquidation of the state's debt. A similar rept., proposing a remedy for sustaining the credit of the state, was made in 1821.

1823. "Our laws to induct the prompt payment of tax, have been attended with a very happy result"; comment on surplus in the treasury. (A.R. auditor and treasurer 1823: 9.)

1824. Recommended that a tax be imposed on judicial process in civil cases, on capital employed in trade, on pleasure and travel carriages, on brass and other clocks, and on gold and silver watches, and that the product of such taxes in whole or in part be made payable to the county treasury of the respective counties. (Govs. mess. (Morrow) Dec. 1824.)

——. Propriety of providing for an increase of the tax on the several rates of land, and that the whole product of land tax be made payable to the state treasury for state purposes. (*Same* (Morrow) Dec. 1824.)

1825. Rept. of committee on finance (Worthington) on the revenue system, Jan. 4, 1825. Columbus: P. H. Olmsted, 1825. 8 pp.

One separate copy was found, viz., in the N. Y. Public Library; 1000 copies were ordered prtd. (House jol. 1824/5: 159.)

——. Same. (House jol. 1824/5: 152-159.)
